"Two Orphans" To-night, The production of "Little Lord Fauntle roy" by the Irene Myers Company at Ferguson's theatre last night was one of the most interesting and pleasing of the present season. Little Irene's portrayal of the title role was an artistic piece of work that showed the little star to be an actress of rare talent. The entire cast was well adapted to the production. Walter Wilson was excellent us the crusty old Earl and added to his laurels as "The Silver King" on the preceding night. O. W. Roche's role of attorney to the Earl was also a commendable piece of work. He is perfectly at home in characters involving elegance of action and cuavity. Miss Della Leon cannot be too highly commended for her impersonation of Dearest. Her interpretation was true to the instincts of a painstaking, devoted and sacrifleing mother and contributed in no small easure to the auccessful production. London, Dec. 28 .- Winston Church I's new arrival at Chieveley camp is perhaps responsible for some over loring of the gravity of the situation but all today's news conveys the impression that Buller may be intending another attack upon the Boer position Certainly the Boers are not inactive At both Modder River and Tugela they are said to be strengthening their

forces and extending defense works, which, in both cases, are seemingly almost impregnable, In a dispatch describing his escape Mr. Churchill cables as follows:
"In the evening I concealed myself

The Boers searched the train at Komatipoort, but did not search deep enough. hours of misery I came safely here, am very weak, but am free. I have lost many pounds in weight, but am light in heart."

The Morning Post has received the following from Mr. Churchill, date of Dec. 26, telegraphed from All ranks have complete confidence

in Sir Redvers Buller, and there is tern determination to succeed next time at all costs. A painful impression was caused by the announcement of the change of commander-in-chief, and the soldiers here are resolved to vindicate their trusted leader. The situation, nevertheless, is dif-

Dispatches from Modder River represent Dutch disaffection in Griqualand west as growing very serious. In some towns the entire Dutch population has joined the Roers. Even in districts that have not been visited by the Boers the Dutch farmers are riding about armed. This is the case also in districts only 50 miles from Cape Town, where a seditions movement is busily propogated. The British forces are inadequate to guard 1,000 miles of communications.
